

Car journeys

What is the most common car colour? How many can you count in 2 minutes?

What is the number on your car number plate? Can you find a car with a higher number on it?

What number do you think you can count to before the traffic lights turn green. Check to see if you're correct.

How long will your journey take you? What is it in minutes? Can you convert it into hours and minutes?

How much does it cost for a litre of petrol?

How many cars are there at the petrol station? If each car has four wheels, how many wheels are there in total?

Can you spot a number plate with the number 3 on it? What is the whole number on the number plate? What is the digit sum total?
