

# Shopping

Look at what the price is at the end of the shop. If you in £10 notes. How many would you need?

Are there any discounts?  
What is the new price?  
How much have we saved?

Can you find two items you can buy for £5?  
Will you get given any change?

What is the cheapest thing you can see for sale?

What is the most expensive thing you can see?

What different shapes can you see around you?  
Can you see any cubes or cylinders?

How long will the shop be open for today?  
What time does it shut?  
What would that look like on a 24 hour clock?
